

## YOUR TRUSTED PARTNER FOR IP NETWORK INFRASTRUCTURE SOLUTIONS

### Today's Businesses Run On High-Performance IP Networks

Today's businesses run on software systems, and enterprise solutions like ERP, MRP, HRP, and CRM combined with applications for Building Automation, Security, Safety, VoIP, WiFi, and PoE delivery to make businesses more efficient and more competitive.

While these applications differ in purpose, they all share a common characteristic -- their benefits are realized through networking, and those benefits are maximized across high-performance IP networks.

As these applications converge on customers' IP networks, the challenge is to ensure that the network's underlying structured cabling system can handle the ever-increasing demands for more bandwidth, greater throughput, faster data rates, and increased reliability. Wirewerks has the expertise and proven cabling system solutions that customers, both large and small, have come to rely upon in meeting their critical networking objectives and strategic business goals.

### Proven Network Solutions from a Trusted Partner

Founded in 1991, Wirewerks is an industry-leading manufacturer of advanced optical fiber and copper structured cabling systems. Built on core values of quality, innovation, and integrity, Wirewerks is *relentlessly* customer-focused and entirely committed to complete customer satisfaction. From project planning, to custom product development, through network implementation and ongoing technical support, Wirewerks operates in partnership with an extensive network of distributors, consultants and authorized installers to provide customers with the best networking solutions and the best value in the industry today.

### Fortune 1000 or Family Business – Scalable Networks to Fit Any Business

Wirewerks network solutions are installed in many **Fortune 1000** businesses and in all major vertical markets including Healthcare, Finance, Retail, Education, and Government. Additionally, many leaders in the Data Center, ISP, and Broadband/MSO markets have implemented Wirewerks products and systems within the critical networks they deploy to deliver their commercial products and services to their clientele. And while we are extremely proud of earning the confidence of our Fortune 1000, MSO, and Data Center customers, we are equally proud of the trust earned over the past three decades from our many small and medium-sized customers as well.

### Benefits of Wirewerks Structure Cabling Solutions

- › Broad selection of high-quality, high-performance components engineered to integrate seamlessly into unique customer network designs
- › Scalable solutions provide simplified growth and expansion for your network
- › Future proofing and interoperability through compliance with Industry Standards
- › Innovation, quality, performance, support and value from Wirewerks

### Peace-of-Mind: Wirewerks' Industry-Leading 25-Year Warranty Program

Our commitment to precision product engineering and quality manufacturing processes combines with the expertise of our factory trained Wirewerks Certified Installers (WCIs) to provide the foundation for the industry's most powerful warranty program.

Customers enjoy the peace-of-mind that comes from knowing that their Wirewerks Certified System is guaranteed to comply with the design and performance requirements of the most demanding Industry Standards, and is warranted against product defects for a period of **25-years** from the date of installation. In the unlikely event of a failure, Wirewerks will correct the problem, **including materials and labor**, at no charge to the original Certified System owner.

### Your Partner for Network Innovations

At Wirewerks, we believe that innovation is a repeatable process, not an isolated event. Since 2017, Wirewerks has received **thirteen major industry Awards** for product innovation and excellence.
